**Individually tested**

Why is the right tool so often missing at the workplace? The reason: too many tools and overly-heavy tool bags can make it bothersome to carry keep them with you. So for us it was a clear challenge: to develop a tool that is suitable for a whole host of applications and can be easily taken along to the workplace. Our solution: Kraftform Kompakt tools. A handle into which blades with a range of different profiles can be inserted. Compactly and protectively housed in a light and robust textile pouch - and they are even VDE-tested, too.

Our screwdrivers are tested for dielectric strength under a 10,000 volt load to make sure that their most important property, their insulation, has been exhaustively tested. Each individual Wera VDE screwdriver is subjected to this test to guarantee safe working up to 1,000 volts.

**VDE interchangeable blades 154 mm long**

Suitable for Kraftform handles 7400 VDE, 827 T i and 817 VDE .

**Handle/interchangeable blade system – Kraftform Kompakt VDE**

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.
