- Mini ratchet suitable for direct mounting of 1/4" sockets
- Drop-forged full steel design for torques exceeding 65 Nm
- Fine-pitched ratchet mechanism and small return angle of 6°
- Simple left/right switchover
- Ideal for working in confined spaces

The Wera Zyklop Mini 3 ratchet for 1/4" sockets. Simplest operation even with just one hand in confined screwdriving challenges. Drop-forged full steel design. Fine tooth mechanism with 60 teeth allows a small return angle of 6° for precise work. The knurled wheel allows fast screwdriving in tight spaces when there is no room for ratcheting. Simple left/right switching. Ergonomically shaped ratchet head and lever.

**Zyklop Mini 3 Ratchet**

**Torque of over 65 Nm**

**Rapid screwdriving**

**Simple direction change**

The Zyklop Mini 3 ratchet is the ideal tool for screwdriving in confined spaces. The fine toothing (60 teeth) allows a very low return angle of only 6°; the knurled wheel allows fast screwdriving even when there is no room for pivoting movement.

The Zyklop Mini 3 can withstand at least 65 Nm. That is far more power than can normally be transferred to such a small tool.

Thumbwheel enables rapid screwdriving, even when there isn't sufficient room for ratcheting use.

Simple switching between left/right operations.
