8007 A VDE Zyklop ratchet, insulated, with reversing lever, with 1/4" drive, 1/4" x 144 mm

EAN:	4013288236357	**Size:**	145x50x50 mm
Part number:	05004866001	**Weight:**	104 g
Article number:	8007 A VDE	**Country of origin:**	CZ
		Customs tariff number:	82041100

- For the most common VDE couplings in electrical building installations
- Insulated and 100% individually tested Zyklop ratchet for safe working up to 1,000 volts
- Fine toothing with 80 teeth for a short return angle of only 4.5°
- Extremely slim design with a soft, ergonomic grip zone for easy work even in very confined spaces
- Safe socket lock via push button, convenient direction change thanks to the reversing lever
- Plastic coating protects surfaces from damage

1/4" Zyklop VDE ratchet for the most common VDE couplings in electrical building installations. Reversing lever for easy clockwise/counterclockwise change. Suitable for working even in very confined spaces, thanks to the slim design and the low return angle (4.5°). Reliable socket locking, activated via push-button. Safe working at voltages up to 1,000 V is guaranteed as each tool is tested at 10,000 V as per IEC 60900.

8007 A VDE Zyklop ratchet, insulated, with reversing lever, with 1/4" drive, 1/4" x 144 mm

Individually tested

Safe working at voltages up to 1,000 V is guaranteed as Zyklop tools for electricians are individually tested at 10,000 V as per IEC 60900.

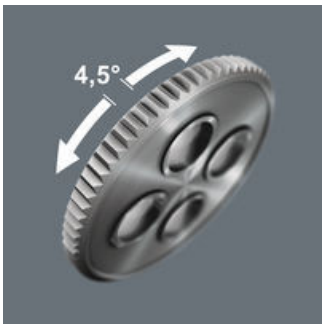
For electrical building technology

The 1/4" Zyklop VDE ratchet is especially suitable for all couplings in electrical building installations.

For small spaces

The extremely slim design of the Zyklop VDE ratchet makes it easy to work, even in confined spaces.

Fine-tooth design



The Zyklop VDE ratchet allows a short return angle of only 4.5 ° thanks to its 80 teeth.

Ball lock

The ball lock ensures sockets and accessories fit securely, providing increased safety during operation. A short press on the release button allows the tool to be changed quickly.

Switch lever

Switch lever for convenient change of direction.
