

8007 A VDE Zyklop ratchet, insulated, with reversing lever, with 1/4" drive, 1/4" x 144 mm

<b>EAN:</b>	4013288236357	<b>Size:</b>	145x50x50 mm
<b>Part number:</b>	05004866001	<b>Weight:</b>	104 g
<b>Article number:</b>	8007 A VDE	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82041100

- For the most common VDE couplings in electrical building installations
- Insulated and 100% individually tested Zyklop ratchet for safe working up to 1,000 volts
- Fine toothing with 80 teeth for a short return angle of only 4.5°
- Extremely slim design with a soft, ergonomic grip zone for easy work even in very confined spaces
- Safe socket lock via push button, convenient direction change thanks to the reversing lever
- Plastic coating protects surfaces from damage

1/4" Zyklop VDE ratchet for the most common VDE couplings in electrical building installations. Reversing lever for easy clockwise/counterclockwise change. Suitable for working even in very confined spaces, thanks to the slim design and the low return angle (4.5°). Reliable socket locking, activated via push-button. Safe working at voltages up to 1,000 V is guaranteed as each tool is tested at 10,000 V as per IEC 60900.

**Individually tested**

Safe working at voltages up to 1,000 V is guaranteed as Zyklop tools for electricians are individually tested at 10,000 V as per IEC 60900.

**For electrical building technology**

The 1/4" Zyklop VDE ratchet is especially suitable for all couplings in electrical building installations.

**For small spaces**

The extremely slim design of the Zyklop VDE ratchet makes it easy to work, even in confined spaces.

**Fine-tooth design**

The Zyklop VDE ratchet allows a short return angle of only 4.5 ° thanks to its 80 teeth.

**Ball lock**

The ball lock ensures sockets and accessories fit securely, providing increased safety during operation. A short press on the release button allows the tool to be changed quickly.

**Switch lever**

Switch lever for convenient change of direction.
