- Brilliant combination of jaw end and ratchet mechanism at the ring end in a long design
- Long lever allows for higher power transmission
- Better accessibility at low-lying couplings
- Limit stop prevents any slipping
- With practical holding function by a metal plate in the mouth
- Return angle of only 30° in the open end
- Extremely robust ring ratchet
- Take it easy tool finder: colour coding by size and extra laser-engraved size indication

Ring ratchet spanner set, long design

Long design

The long design of the spanner improves accessibility at low-lying couplings.

With holding function for hexagonal screws and bolts

The Joker's holding function means that nuts and bolts can be held in the jaw and easily positioned where they are needed. Fastening on to the thread can then be done quickly and safely, thanks to the innovative special stop-plate which holds the fastener. No more time-wasting searches for dropped nuts and bolts! After applying and positioning the nut or bolt, fastening can begin immediately - no additional tools required.

Limit stop prevents any slipping

Thanks to its end stop, the Joker lowers the risk of the screw head slipping down. In addition, by reducing the risk of slipping, much more force can be applied when screwdriving.

Double-hex geometry

The Joker's clever double-hex geometry delivers a very positive connection with nuts or bolts - it's a perfect fit. Serrated teeth on the hardened metal plate provide grip in the Joker's open end literally bite themselves into the bolt, with its extremely hard tips. Both features combine to prevent slipping, even at higher torque.

Return angle of only 30° in the open end

The double hexagon geometry of the jaw end reduces the return angle of the Joker 6007 to 30°. The Joker 6007 has a straight jaw - awkward turning and repositioning is a thing of the past.

Fine tooth mechanism

The ratcheting feature at the ring end boasts an exceptional, fine tooth mechanism - 80 teeth in all - which provides greater flexibility, even in very confined workspaces.

Take it easy tool finder

Take it easy tool finder with colour coding by size and extra laser-engraved size indication - for quick and easy identification of the required tool.
