

300 Hex Torque-indicator, pistol handle, 4 mm x 5.0 Nm

Series Torque-indicators

EAN:	4013288099150	Size:	218x81x51 mm
Part number:	05027913001	Weight:	219 g
Article number:	300 Hex Pistole	Country of origin:	CZ
		Customs tariff number:	82054000

- Torque-indicator with pre-set and tamperproof torque value
- Distinct audible and perceivable excess load signal when the pre-set torque value is reached
- Non-adjustable and tamperproof
- Unlimited torque for loosening seized screws
- Multi-component Kraftform pistol handle for fast and ergonomic screwdriving

Wera torque screwdriver with fixed torque for hexagon socket screws. Tamperproof and with a slim hex blade. Unlimited torque for loosening seized screws. Multi-component Kraftform handle for pleasant, ergonomic working that prevents blisters and calluses. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer.

Torque-indicators

Wera torque-indicators have been factory pre-set to values recommended by leading carbide tool manufacturers. These tightening values relate specifically to the size of the TORX®, TORX PLUS® or hexagon socket screw. Torque indicators ensure safe and easy loosening of screw connections. Precision : $\pm 10\%$

Tamperproof

Non-adjustable and tamperproof.

For difficult-to-access places

Slim 4 mm hexagon blades to reach screws in difficult-to-access places.

Excess-load signal

Distinctly audible and noticeable excess-load signal when the pre-set torque is reached.

Hex-Plus

Hexagon socket screws are a problem, because the contact surfaces that transfer the force of the tool to the screw are very narrow. The consequence: the head of the screw can be damaged, usually rounding out the recess. Hex-Plus tools have larger contact surfaces to prevent this, driving from the flats of the recess, rather than the corners. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Pistol handle

Multi-component Kraftform pistol handle for fast and ergonomic screwdriving
