21-piece compact workshop on the go; ideal for minor repairs. For common screwdriving applications on motorcycles. With practical pouch (hook and loop fastener system). The sewn-in magnet on the front secures screws and bits - no risk of losing them! Two extra compartments for additional tools and small parts. The pouch can be hung on the motorcycle frame via the flexible hook and loop part on the back. Included are one bit ratchet (1/4") for handles with 1/4" bit mounting; drop-forged solid steel design; with fine toothing mechanism (60 teeth) for a small return angle of 6° for precise working. Easy clockwise/counterclockwise switching. 1/4" sockets can also be used with the Wera 870/1 adapter (1/4" external hexagon to 1/4" external square head) included in the set. 4 Zyklop sockets (1/4") for manual and machine-operated tools; with ball stop groove. Knurling at the rear end for manageability during manual screwdriving. With Take it easy tool finder: colour coding by size to help you find the required tool quickly and easily. Made of matte chrome-plated chrome-vanadium. One Kraftform handle with 1/4" bit mounting, one magnetic 899/4/1 K bitholding screwdriver (for 1/4" bits) for screwdriver machines, magnetic, one extension (100 mm) for bits with 1/4" external hexagon drive. 13 bits (Phillips, TORX®, hexagonal socket, slotted) in BTZ design with BiTorsion zone (prevents the bit from breaking prematurely) and Take it easy tool finder: colour coding by profile and size. The tools are safely stored and neatly arranged in the Tool-Check Modular, and can be connected to other components of the Tool-Check Modular system using the Tool-Check Modular 9549 adapter or Tool-Check Modular 9550 hinge (both not included in the set).

The compact workshop on the go

This 21-piece set with bit ratchet, Kraftform handle with bit mounting, universal bitholding screwdriver for mechanical screwdriving, bits, adapter for sockets, and sockets is your compact workshop on the go.

With a practical pouch with hook and loop fastener system

The sewn-in magnet on the front of the pouch holds screws and bits securely. Additional tools and small parts can be stored in the two extra compartments. The pouch can be hung, e.g. on the motorcycle frame, via the flexible hook and loop part on the back.

At the workplace

Secure attachment in the storage compartment

The pouch can be securely attached to the motorcycle's storage compartment using the hook and loop strap on the back.

Screwdriving with the bit ratchet

With its 1/4" external hexagon connection, the Zyklop 8011 bit ratchet can be inserted in the 1/4" hexagonal bit mounting of the 815/1 bitholding screwdriver. The Zyklop bit ratchet is suitable for 1/4" hex drive bits.

Ideal for working in confined spaces

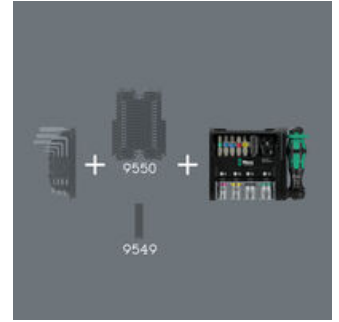

With their extremely compact design, the Zyklop Mini ratchets are particularly suitable for all hard-to-reach applications.

The 870/1 connector

1/4" sockets can also be used with the Zyklop Mini bit ratchet by connecting the 870/1 adapter (1/4" hexagon to 1/4" square head).

The Tool-Check Modular system

The Tool-Check Modular system offers the possibility of combining Tool-Check Modular products in a super-compact manner depending on requirements. All you need is the rigid adapter 9549 or the flexible hinge 9550. The Tool-Check Modular products can be combined, exchanged or expanded at any time.
