- Kraftform holder with bayonet blade and Rapidaptor quick-release chuck
- Kraftform handle with anti-roll feature, multi-component and integrated magazine
- Retractable bayonet blade
- "Take it easy" tool finder: colour coding according to profile and size
- In robust pouch

Wera compact tools enable the simultaneous use for the two types of fastening "manual" and "power tool". The handle/interchangeable system in a compact design with various blade tips in a minimum of space make the user mobile and flexible. Suitable for bits with 1/4" hexagon head drive as per DIN ISO 1173-C 6.3 und E 6.3 (ISO 1173) and Wera connecting series 1 and 4. Comes with an extension, bayonet, Rapidaptor technology. Kraftform handle with non-roll feature, multi-component for particularly ergonomic screwdriving. Integrated magazine for the storage of the bits. In this way, this set replaces a 6-piece screwdriver set and reduces the equipment required to a minimum. The profile and size of the bits are easy to recognise thanks to the Wera "Take it easy" Tool Finder with its colour coding and clearly visible imprint.

**Telescopic blade, integrated bit magazine, Rapidaptor technology**

Why is the right tool so often not at hand? The reason: too many tools and overly-heavy tool bags can make it bothersome to carry them onsite. So for us it was a clear challenge: to design a tool that is suitable for a whole host of applications and can be easily taken along to jobs at other sites. Our solution: Kraftform Kompakt tools. A handle into which blades with a range of different profiles can be inserted. Compactly and protectively housed in a light and robust textile pouch or plastic box.

The sets in the series Kraftform Kompakt 20 are really something. A 2 position telescopic blade can be retracted into the handle for confined space operation or extended for more reach. It can also be removed and used as a 100 mm bit holder in the power tool. Six bits are conveniently integrated into a push-button opening bit magazine. The Rapidaptor technology ensures rapid one hand bit changes, press-in auto bit lock and a secure positioning when used in power tools thanks to the free-turning sleeve.

**Handle/interchangeable blade system**

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

**The telescopic blade I**

When the unique telescopic blade is lowered into the handle, fast, easy screw-driving action is possible, even in the tightest spots!

**The telescopic blade II**

By pushing the clamping sleeve, the telescopic blade can be extended out of the handle and the compact tool becomes a full-sized screwdriver.

**The telescopic blade III**

If the clamping sleeve is pushed again the telescopic blade can be taken out of the handle, and be used as a machine bit adaptor.

**"Take it easy" tool finder**

"Take it easy" tool finder with colour coding according to profiles and size stamp - for simple and rapid accessing of the required tool.

**Prevents hand injuries**

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
