- Bit holder for bits with 1/4" hexagon drive
- Ergonomic Kraftform handle
- Hexagonal anti-roll feature against rolling away
- Magnetic

Premium bitholding screwdriver. Kraftform Plus handle for comfortable ergonomic screwdriving, avoiding blisters and calluses. Hard handle zones for high working speeds, while soft handle zones guarantee a high torque transfer. Suitable for bits with 1/4" external hexagon drive as per DIN ISO 1173-C 6.3.

Bitholding Screwdrivers and Adaptors

Magnetic

Suitable for 1/4" DIN ISO 1173-C 6.3 hexagon insert bits and Wera Series 1; drive: 1/4" hexagon, magnetic

Kraftform

The basic idea for the prototype of the Kraftform handle - that the hand should dictate the design - has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
