

## Rapidaptor Bit Holders

<b>EAN:</b>	4013288101242	<b>Size:</b>	109x40x40 mm
<b>Part number:</b>	05052504001	<b>Weight:</b>	39 g
<b>Article number:</b>	889/4 R	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	84661038

- Rapidaptor technology for rapid bit change
- Rapidaptor universal holder for bits with 1/4" hexagon drive, magnetic
- 1/4" hexagon drive

Rapidaptor universal holder for bits with 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3 (ISO 1173). The Rapidaptor allows mounting the bits without using the sleeve. The bit is removed by simply pushing it forward - for lightning-fast bit changes, even with just one hand. The strong permanent magnet holds the bits firmly. 1/4" hexagonal, suitable for screwdriver machines with mounting as per DIN ISO 1173-F 6.3.

Rapidaptor Bit Holders

Magnetic

Bit holders, magnetic, for easier application of the screw

Rapidaptor holder

Rapid bit change without needing any additional tools. One-hand operation with a freely spinning sleeve for simplified guidance of the tool. Also available in a BiTorsion design.

Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Single-hand function

Every function of the Rapidaptor quick-release chuck, such as inserting or releasing bits, can be carried out with one hand. This is faster, more economical and more ergonomic. There are no unnecessary manoeuvres.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Rapid-spin

The free-turning sleeve allows screw steadying at the start of the screwdriving process. This makes it easier to apply the tool to the screw and prevents slipping. It can also be used as a short extension for 1/4" applications e.g. in combination with the Wera Zyklus Ratchets.
