

EAN:	4013288219893	Size:	25x6x6 mm
Part number:	05071028001	Weight:	5 g
Article number:	3867/1 TS P TORX®	Country of origin:	CZ
		Customs tariff number:	82079030

- For TORX® socket screws with safety pin
- TORX® bit with bore hole on the output side
- Stainless Steel Bits
- Solution to the extraneous rust problem: fasten stainless screws with stainless tools
- Vacuum ice-hardened
- Torsion design against premature wear
- 1/4" hexagon drive (Wera connecting series 1)
- "Take it easy" tool finder: colour coding according to profile and size

Application:TORX® socket screws with bore hole

Drive:1/4" hexagon, suitable for DIN ISO 1173-D 6.3 bit holders

Design:TORX® with safety pin, stainless steel for minimising rust, special torsion-style design to reduce premature wear. Take it easy.
tool finder: Output colour coding and large stamp to enable the desired bit to be easily located.

Stainless Steel Bits

Vacuum ice-hardened

Torsion bits

"Take it easy" tool finder

Wera stainless steel bits are manufactured out of stainless steel so unsightly rust can be avoided. The stainless steel bits from Wera are vacuum ice-hardened and have the hardness and strength needed for screw connections. There are no limitations to the industrial applications they are suitable for.

The stainless steel tools from Wera are vacuum ice-hardened and have the hardness and strength needed for screw connections. There are no limitations to the industrial applications they are suitable for.

Torsion bits absorb the damaging peak torque loads in the torsion zone. This prevents premature wear and enhances the service life of the bits.

"Take it easy" tool finder with colour coding according to profiles and size stamp - for simple and rapid accessing of the required tool.
