

Series 7400 Kraffform torque screwdrivers with a customised factory pre-set measurement value, handle size 89 mm, 7452 x 0.9-1.5 Nm

Series 7400 Kraffform Torque Screwdrivers, adjustable to customer requirements within the specified measurement range

<b>EAN:</b>	4013288188137	<b>Size:</b>	170x40x40 mm
<b>Part number:</b>	05074794010	<b>Weight:</b>	139 g
<b>Article number:</b>	7400 customized pre-set, 89 mm	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82054000

- Customized pre-set torque screwdriver with Rapidaptor quick-release chuck
- Only adjustable with an extra tool
- Suitable for bits with 1/4" hex head drive
- Rapidaptor technology for rapid bit change
- Distinct signal when pre-set value is reached
- Multi-component Kraffform handle for high working speeds

Wera torque screwdriver. With a customised factory pre-set torque value. For all applications, where the same constant torque and repeat accuracy are required. The torque can be changed with an extra tool within the measuring range (re-calibration kit can be ordered with the code number 05137003001). Afterwards you can check the set value using an off-the-shelf torque tester. Unlimited loosening torque for slackening stuck screws. Rapidaptor quick-release technology for rapid bit changes. Suitable for bits with a 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3 (ISO 1173). Multi-component Kraffform handle with hard and soft zones for high working speeds, whilst being easy on the hand.

Please note: 1 Ncm = 0.01 Nm.

Series 7400 Kraffform torque screwdrivers with a customised factory pre-set measurement value, handle size 89 mm, 7452 x 0.9-1.5 Nm  
 Series 7400 Kraffform Torque Screwdrivers, adjustable to customer requirements within the specified measurement range

**Customised pre-setting**

Wera torque screwdriver. With a customised factory pre-set torque value. For all applications, where the same constant torque and repeat accuracy are required.

**Unlimited torque**

Unlimited torque for loosening seized screws.

**Versatile**

Rapidaptor technology makes the tool adaptable since bits and sockets can be exchanged rapidly.

**Chuck-all**

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

**Rapid-in and self-lock**

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

**Rapid-out**

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

**Single-hand function**

Every function of the Rapidaptor quick-release chuck, such as inserting or releasing bits, can be carried out with one hand. This is faster, more economical and more ergonomic. There are no unnecessary manoeuvres.

**Further versions in this product family:**
