

Series 7400 ESD Kraftform torque screwdrivers with a customised factory pre-set measurement value, handle size 105 mm, 7460 ESD x 0.3-1.2 Nm
7400 ESD series Kraftform Torque screwdrivers, with factory pre-set value of your choice

EAN:	4013288188236	Size:	155x37x37 mm
Part number:	05074840010	Weight:	126 g
Article number:	7400 ESD customized pre-set, 105 mm	Country of origin:	CZ
		Customs tariff number:	82054000

- Customized pre-set torque screwdriver with Rapidaptor quick-release chuck
- ESD-safe tool thanks to surface resistance of $\leq 10^9$ Ohm
- Suitable for bits with 1/4" hex head drive
- Rapidaptor quick-release chuck for bits with 1/4" hex head drive
- Rapidaptor technology for rapid bit change
- Kraftform handle for fast and ergonomic screwdriving

Wera torque screwdriver. Safe protection against electrostatic charge and associated damage. With a customised factory pre-set torque value. For all applications, where the same constant torque and repeat accuracy are required. The torque can be changed with an extra tool within the measuring range (re-calibration kit can be ordered with the code number 05137001001). Afterwards you can check the set value using an off-the-shelf torque tester. Rapidaptor quick-release technology for rapid bit changes. Unlimited loosening torque for slackening stuck screws. Multi-component Kraftform handle with hard and soft zones for high working speeds, whilst being easy on the hand. Suitable for bits with a 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3 (ISO 1173).
Please note: 1 Ncm = 0.01 Nm.

Series 7400 ESD Kraftform torque screwdrivers with a customised factory pre-set measurement value, handle size 105 mm, 7460 ESD x 0.3-1.2 Nm
7400 ESD series Kraftform Torque screwdrivers, with factory pre-set value of your choice

Customised pre-setting

Wera torque screwdriver. With a customised factory pre-set torque value. For all applications, where the same constant torque and repeat accuracy are required.

Wera ESD Tools

The requirements for ESD-safe screwdrivers are specified in the European standard DIN EN 61340-5-1. This standard also includes a handle that has to be out of a defined conductive material. The Wera products in the ESD series satisfy these standards and the even more stringent requirements demanded by some technology companies.

High protection

The electric surface resistance of the Wera ESD material is $\leq 10^9$ ohm. This securely protects components against electrostatic energy and associated damage.

Versatile

Rapidaptor technology makes the tool adaptable since bits and sockets can be exchanged rapidly.

Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
