Article number:	Kraftform Kompakt 27 Set 1 Christmas 2025	Country of origin:	CZ
		Customs tariff number:	82079030

- Bitholding handle with bit magazine
- Bit holder with strong permanent magnet which holds bits firmly
- Magazine integrated in the handle for bit storage
- With 6 BiTorsion bits in the magazine: Phillips and Pozidriv, TORX® and slotted; tough
- Take it easy tool finder: colour coding according to profile and size
- In an advertising-free Christmas box - the ideal present

Wera compact tools in advertising-free, Christmassy gift packaging. The perfect gift for anyone who values quality tools. One bitholding screwdriver, multi-component Kraftform handle for high working speeds and particularly ergonomic screwdriving; bit mounting with a strong permanent magnet for secure seating of the bit. Bit magazine integrated in the handle. 6 BiTorsion (BTZ) bits for universal use. The BiTorsion zone cushions peak loads and ensures a long service life for the bits. All bits are equipped with the Take it easy tool finder: The coloured band (colour indicates the screw profile) also carries a stamp with size information which makes it easy to find the right bit.

Festive packaging

The tool set is packaged in a Christmas-themed box, making it the perfect Christmas gift.

Bitholding handle with bit magazine

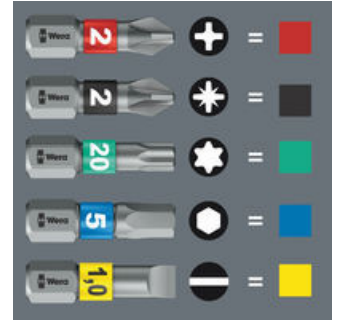

The handle can be opened via an operating button. A magazine for 6 bits is integrated in the handle.

Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Bits with Take it easy tool finder

Take it easy tool finder with colour coding according to profiles and size stamp - for simple and rapid accessing of the required tool.

Universal holder with stainless steel sleeve

With stainless steel sleeve and strong permanent magnet.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

Kraftform

The basic idea for the prototype of the Kraftform handle - that the hand should dictate the design - has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.
