 Schraubendreher-Mix
 Christmas 2026

Size: 220x80x40 mm
Weight: 360 g
Country of origin: CZ

Customs tariff number: 82054000

- Chiseldriver 932 A (slotted) with impact cap and pound-thru hexagonal blade for screwdriving, chiselling, mortising
- 350 PH screwdriver for Phillips-head screws with Lasertip tip for better hold on the screw head
- Screwdriver 160 iS (slotted), VDE insulated, with reduced blade diameter for hard-to-reach screw and spring elements
- In an advertising-free Christmas box - the ideal present

The perfect gift for anyone who values quality tools. 3-piece screwdriver set in an advertising-free, Christmassy gift packaging. One chiseldriver (slotted) for screwdriving, chiselling, mortising, one screwdriver with Lasertip tip for Phillips screws, which reduces slipping out of the screw, one VDE insulated slotted screwdriver with reduced blade diameter, hard-to-reach screw and spring elements can be easily reached and operated.

Festive packaging

The tool set is packaged in a Christmas-themed box, making it the perfect Christmas gift.

Integrated impact cap

An integrated impact cap lengthens the service life and reduces the danger of splintering. Nevertheless, always wear protective goggles.

Pound-thru blade

A hexagon blade made out of high-quality bit material extends right through the handle - thereby ensuring full transfer of force, even when struck with a hammer. The ductile tempered material prevents the blade from splintering or breaking.

Integrated hex bolster

Greater torque can be transferred by fitting an open-jaw or ring spanner over the integrated hex bolster.

Screwdriver 350 PH with Lasertip

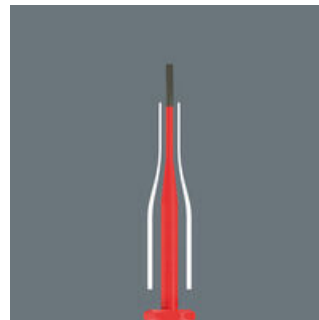

A precisely-focused laser creates a sharp-edged surface structure. Wera Lasertip "bites" itself into the screw head and prevents any slips out of the recess. It is available for screwdrivers for slotted, Phillips and Pozidriv screws.

Screwdriver 350 PH with Take it easy

Colour coding according to profile and size stamp. This enables faster and more reliable selection of the correct tool from the tool case.

VDE-insulated screwdriver with reduced blade diameter

Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.
