

EAN:	4013288238399	Size:	285x210x55 mm
Part number:	05136078001	Weight:	853 g
Article number:	932/917/5/Joker 6002	Country of origin:	CZ
		Customs tariff number:	82054000

- Brilliant combination: Wera's most robust screwdriver meets the unique Joker spanner
- The end stop in the jaws prevents the spanner from slipping down
- Practical holding function for bolts and screws by a special metal plate in both jaws of the Joker 6002 double open-end spanners
- The Joker 6002 double open-end spanner has a small return angle of only 30°, which speeds up work
- 5 chiseldrivers (slotted and Phillips) for screwdriving, chiselling, mortising
- Pound-thru screwdriver blade (hexagonal) made of premium bit material
- The impact cap at the top end of the handle is connected to the blade, which ensures power transmission without loss even at hammer blows
- Higher torques can be transmitted with the Joker 6002 double open-end spanner included in the set, using the integrated hexagonal bolster at the blade

5-piece chiseldriver set (for slotted and Phillips) plus one Joker 6002 double open-end spanner (sizes 8 and 10). Brilliant combination: Wera's most robust screwdriver meets the unique Joker spanner. Your everyday companion in the tool box. The chiseldriver is suitable for screwdriving, chiselling, mortising and slackening even stuck screws. Higher torques can be transmitted with the Joker 6002 double open-end spanner included in the set, using the integrated hexagonal bolster of the chiseldrivers. With pound-thru hexagonal blade made of premium bit material, which ensures power transmission without loss even at hammer blows and reduced risk of the blade splintering or breaking. A storage rack for screwdrivers completes the set.

Integrated impact cap

Greater torque can be transferred by fitting an open-jaw or ring spanner over the integrated hex bolster.

An integrated impact cap lengthens the service life and reduces the danger of splintering. Nevertheless, always wear protective goggles.

Pound-thru blade

A hexagon blade made out of high-quality bit material extends right through the handle - thereby ensuring full transfer of force, even when struck with a hammer. The ductile tempered material prevents the blade from splintering or breaking.

Wera Black Point tip

The Wera Black Point tip and a refined hardening process ensure long service life of the tip, improved corrosion protection and an exact fit.

Integrated hex bolster

Higher torques can be transmitted with the Joker 6002 double open-end spanner included in the set, using the hexagonal bolster integrated at the blade.

Holding function

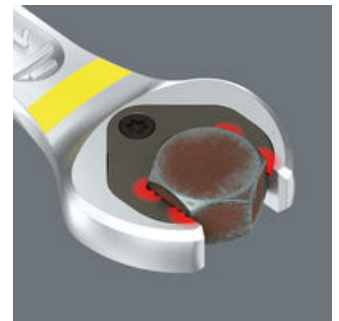

The Joker's holding function means that nuts and bolts can be held in the jaw and easily positioned where they are needed. Fastening on to the thread can then be done quickly and safely, thanks to the innovative special stop-plate which holds the fastener. No more time-wasting searches for dropped nuts and bolts! After applying and positioning the nut or bolt, fastening can begin immediately - no additional tools required.

No slipping down thanks to the end stop

Constant re-positioning of the wrench? Difficulty holding fasteners in confined spaces? Easing off to avoid any risks of injury or fastener damage? That was yesterday. Today, the Joker prevents slipping off of the fastener head with its integrated limit-stop - no longer is the thumb needed to act as a depth stop. This makes applications much easier and allows significantly more force to be applied during fastening jobs.

Double hexagon geometry reduces the risk of slipping to the side

The Joker's clever double-hex geometry delivers a very positive connection with nuts or bolts - it's a perfect fit. Serated teeth on the hardened metal plate provide grip in the Joker's open end literally bite themselves into the bolt, with its extremely hard tips. Both features combine to prevent slipping, even at higher torque.

Set contents:

917 SPH Screwdriver for Phillips screws, PH 1 x 80 mm

05017005001	1x	PH 1 x 80 mm
05017010001	1x	PH 2 x 100 mm

932 A Screwdriver for slotted screws, 0.8 x 4.5 x 90 mm

05018262001	1x	0.8 x 4.5 x 90 mm
05018264001	1x	1 x 5.5 x 100 mm
05018266001	1x	1.2 x 7 x 125 mm

6002 Joker Double Open end wrenches, 8 x 10 x 141 mm

05020259001	1x	8 x 10 x 141 mm
-------------	----	-----------------

Rack for Kraftform screwdrivers, 190 x 50 mm

05134001001	1x	190 x 50 mm
