**Robust, lightweight, rigid**

The material used is distinguished by its high level of robustness. At the same time, the textile box is light and rigid. Even if the textile box falls down, the tools are well protected.

**Robust loops for a secure hold**

The robust loops made of broad rubber band hold the tool safe and tight.

**Flexible thanks to hook and loop fastener strips**

The textile box features a fleece zone at the back. Using the provided self-adhesive hook and loop fastener strips, the textile box can be attached to the Wera 2go components. Or to the wall, shelf or workshop trolley.
