Robust material

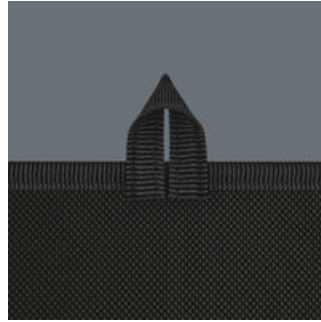

The material used is distinguished by its high level of robustness.

Robust loops for a secure hold

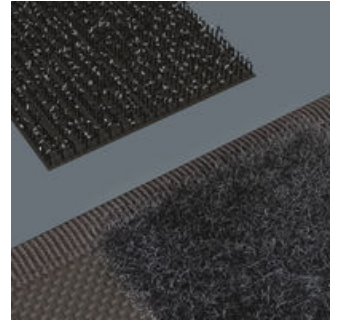

The robust loops made of broad rubber band hold the tool safe and tight.

With hanging loop

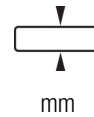

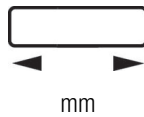

The loop can be used to hang the textile bag open at the workplace. The tools can be accessed immediately.

Flexible due to hook and loop fastener strips

The textile box features a fleece zone at the back. Using the provided self-adhesive hook and loop fastener strips, the textile box can be attached to the Wera 2go components. Or to the wall, shelf or workshop trolley.
