

EAN:	4013288234704	Size:	785x518x1020 mm
Part number:	05305851001	Weight:	84000 g
Article number:	9800	Country of origin:	DE (05)
		Customs tariff number:	94032080

- Exclusive roller cabinet in the Tool Rebel design
- Without tools
- Width x height x depth: 785 x 1020 x 518 mm
- Extremely robust thanks to a double-walled design
- 7 drawers (5 shallow, 2 deep)
- Dimensions shallow drawers (width x height x depth): 522 x 81 x 398 mm
- Dimensions deep drawers (width x height x depth): 522 x 166 x 398 mm
- 100 % drawer pull-out with ball bearing telescopic slides, self-closing

Exclusive roller cabinet in the Tool Rebel design. Width x height x depth: 785 x 1020 x 518 mm. Without tools. Five shallow and two deep drawers ensure efficient, mobile organization of tools and materials. Extremely robust thanks to a double-walled design and the fully welded construction of the entire body. Edge protection with cushioning effect at all four corners for optimal impact protection. For daily hard work in the workshop.

Robust design for hard work in the workshop

The double-walled design and the completely welded construction make the Tool Rebel roller cabinet extremely robust. The optimized yielding edge protection on all four corners ensures reliable impact protection thanks to an internal cushioning action.

Storage and work surface with lots of advantages

The large storage and work surface is made of solvent-resistant plastic and, being also completely sealed, the inside of the trolley is protected from leaking liquids.

Sophisticated drawer design

The drawers are equipped with ball bearing telescopic slides and can be pulled out completely. Self-closing and mutually locking to prevent unintentional opening, thus minimal risk of tilting of the roller cabinets. The carefully considered drawer design allows optimal use of the interior space. The dirt-resistant drawer coating makes cleaning easy.

Detailed locking concept for more security

The ergonomically arranged lateral position of the lock improves usability and protects the key and lock from damage. The extremely robust locking system protects the tools stored in the roller cabinet against unauthorized access. The central locking is completed by a cylinder lock. Two folding keys are included.

Secure locking, smooth running

The two swivel castors are equipped with a double stop: The locked castor reliably prevents it from rolling away, the locked spindle carrier prevents the castors from turning unintentionally, e.g. on sloped surfaces. The oil- and acid-resistant elastic wheels ensure smooth running. A protective ring prevents the ingress of dirt and threads.

Heavy-duty gear

The Tool Rebel roller cabinet has large wheels, each with a load of 250 kg, with precision ball bearings and double ball rims in the spindle carrier. The workshop trolley is easy to move, even under high dynamic loads.

High loads

The dynamic load of the roller cabinet is 540 kg, the static load is 1,000 kg and the drawer load is 25 kg.
