

EAN:	4013288230454	Size:	285x200x60 mm
Part number:	05347823001	Weight:	916 g
Article number:	Kraftform Sports Edition Scotland	Country of origin:	CZ
		Customs tariff number:	82054000

- Each Kraftform Plus handle is stamped with the iconic Scottish Thistle
- The fan-favourite bottle opener in it's Scotland Jersey
- Lasertip prevents slipping out
- Hexagonal blade and bolster for higher torque transfer
- Multi-component Kraftform handle for high working speeds and ergonomic screwdriving

Introducing our new, limited-edition Scotland screwdriver set! Wearing the traditional emblematic thistle, this set is a tribute to Scotland's rich and competitive heritage. Sporting a striking blue & white jersey, infuse every turn of the screw with the spirit of the Highlands.

The Kraftform Plus screwdrivers each feature a multi-component Kraftform Plus handle with hexagonal blade and bolster design for high torque transfer, maximum strength and durability. The Lasertip offers a more secure fit in the screwhead, for easy working and reduced chance of slippage.

Of course, the fan favourite Bottle Opener is included for your collection.

Kraftform Sports Editions

Sports Edition Sets

Sports Edition Sets, adorning each country's representative jersey and unique handle stamp. One of four, in the collection, covering England, Ireland, Scotland, Wales.

Handle marking

Each Kraftform Plus handle is stamped with the iconic Scottish Thistle.

Lasertip prevents slipping out

It happens time and time again that the tip slips out of the screw head when screwdriving, sometimes damaging valuable surfaces or even causing injury. The tips of the Wera Lasertip screwdrivers are microscopically roughened by means of a laser. This rough surface literally "bites" itself firmly into the screw head. Slipping out becomes a thing of the past.

Lasertip

A precisely-focused laser creates a sharp-edged surface structure. Wera Lasertip "bites" itself into the screw head and prevents any slips out of the recess. It is available for screwdrivers for slotted, Phillips and Pozidriv screws.

Reduced contact pressure

Wera Lasertip reduces the contact pressure required and enhances force transfer - meaning less screwdriving effort is required. Screwdriving becomes safer and easier.

Hexagonal blade and bolster

Greater torque can be transferred by fitting an open-jaw or ring spanner over the integrated hex bolster.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

Non-roll feature

The hexagonal non-roll feature prevents any rolling away at the workplace.
