

EAN:	4013288226990	Size:	230x180x85 mm
Part number:	05134027001	Weight:	712 g
Article number:	Kraftform Micro Big Pack 2	Country of origin:	CZ
		Customs tariff number:	82054000

- 28-piece Kraftform Micro screwdriver set in a robust and compact roll bag
- With three master screwdrivers that fit in a shirt pocket - perfect for quick use, and come with a convenient storage pouch
- Kraftform Micro handle for fast and ergonomic working
- Tools with anti-roll protection and rotating cap for fast turning
- The Wera Black Point tip offers an exact fit and optimum corrosion protection
- Take it easy tool finder: colour coding according to profile and size
- Suitable for electricians, opticians, precision mechanics, jewellers or computer hardware engineers

Wera Micro screwdrivers in a set for precision mechanical couplings. By supporting the hand on the rotating cap, and due to the fast rotating zone below the rotating cap, lightning fast turning is possible. Time-consuming hand switching is eliminated. Storage and transport in a robust textile pouch - the tools are always close at hand. Including 3 master screwdrivers in a pouch which can be easily clipped into your shirt pocket, always ready at hand. With Take it easy tool finder: Colour coding by profile and size stamping.

With master screwdrivers to be proud of.

Kraftform Micro master screwdriver

The master screwdrivers are practical companions for everyday life. With their clip, they can be put in your pocket so that you always have them at hand. The screwdrivers are neatly arranged in a useful insert pouch. The required screwdriver can be found quickly thanks to the colour-coded clips (Take it easy).

Take it easy Tool Finder

Screwdrivers with Take it easy tool finder: colour coding according to profile and size stamp.

Kraftform Micro handle

Multi-component screwdriver handle for ergonomic working.

The refined screwdriver for electronics technicians

The Kraftform Micro, with its three zones and their specific arrangement, satisfies these requirements perfectly. The free-turning cap that provides support for the hand works with these advantages, enabling quick and easy precision work.

The precision zone

The precision zone directly above the blade gives the user a better feel for the right rotation angle during fine adjustment work.

The power zone

The power zone has integrated soft zones near the blade tip to ensure high torque transfer for loosening or tightening screws without losing contact with the screw.
